

Announcement for Postdoctoral Fellowship Position

In my research group, we have the opportunity to nominate a postdoctoral researcher for an Canada Impact+ Research Training Award. As such, we are looking for a motivated researcher who wants to join our research team.

Details of the opportunity:

- Duration: 2 years
- Salary: 70,000 CAD per year
- Start date: any time between April 2026 and March 2027
- Location: preferably in Edmonton or Calgary

You can find more information about the Canada Impact+ Research Training Awards at:

<https://nserc-crsng.canada.ca/en/canada-impact-research-training-awards-qa>

Eligibility and Required Qualifications:

- The candidate must have a completed PhD degree by the start date of the fellowship
- The candidate cannot currently be affiliated with a Canadian university (we are looking for international candidates)
- The research topic for the postdoctoral fellowship needs to be aligned with the focus area of “Advanced digital technologies (including AI, quantum and cybersecurity)” and related to one or more of the following areas:
 - adaptive and intelligent learning systems
 - personalization in educational technology
 - learning analytics and academic analytics
 - artificial intelligence in education (including generative AI in education)
 - game-based learning
 - user/student modelling
- The candidate should have a background in computing (i.e., UG and/or MSc degree in computing) and relevant research expertise (i.e., through their PhD research) in one or more of the areas above.

How to apply:

If you are interested in this opportunity, please send the following documents to Dr. Sabine Graf at sabineg@athabascau.ca as soon as possible but latest by **January 22, 2026**:
